VM3 ORGANICS + Silica

MP REINFORCE delivers freely available Silica along with VM3 organics to strengthen turf and correct calcium deficiency fast. Calcium is an essential element for strengthening cell walls and subsequently enhancing stress resistance. MP REINFORCE contains VM3, a proprietary organic technology that enhances nutrient availability, longevity and compatibility for better turf performance. VM3 is a product of fermentation that incorporates several beneficial bacteria, trace minerals and plant stimulants. In this process, nitrates are converted to protein N, for increased stability, longevity and turf safety when applied to foliage.
